DESCRIPTIONS

Following the name of each larger variety here, the classification is first given. Next the key letter (A-B) to give the general size of bloom. Last the general height of bush.

T—Tall **M**—Medium **S**—Short

Key letter following classification . . .

"A" (or large) over 8 inches in diameter.

"B" (or medium) 4 to 8 inches in diameter.

"M" (or miniature) under 4 inches.

Special culture will increase the size of blooms, but these are average sizes.

CLASSIFICATIONS

FD—Formal Decorative. Fully double flowers, uniform broad petals either pointed or rounded at tips.

ID—Informal Decorative. Fully double flowers with margins of floral rays slightly or not at all revolute. Generally petals irregularly placed.

SC—Semi-Cactus. As name suggests, petals revolute for less than half length.

STC—Straight Cactus. Petals straight and revolute for half or more.

IC—Incurved Cactus. Fully double flowers with margins of petals revolute for half or more of length, tips curving toward center.

BALL—Fully double. Ball-shaped.

SINGLE—One row of petals with a definite disc in center.

COL—Collarette. Like a single, but has a tiny row of petaloids around center like a small collar.

ANEMONE—Open-centered flower, with the tubular disc florets elongated, to form a pincushion. One row of petals around quilled cushion.

MIGNON—Single dahlias, approximately 18 inches in height.

PEONY—Open-centered flowers with two to five rows of ray florets with or without the addition of small floral rays around disc.

DWARF—Term that applies to plant height without regard to bloom size.

ORCHID—Flowers like single dahlias excepting that the rays are more or less tubular by the involution of the margin.

WATERLILY—Popular name for some FD which resemble waterlily shape.

New Introductions for 1962

BETH M (Catherine Miller)—(SC B M)—Lt. blend. Oriental pink with light primose yellow. Bloom size 7"x5" natural, 8"x6" disbudded. Early bloomer. Won Seattle Trophy for best in that class 1961, and also scored 85.06 in Pacific Northwest Trial Garden 1961. ..... NET 7.00

CASCADE CANARY (Tony DeRooy)—(STC B M)—Canary yellow. A superb cactus on perfect stems. Form is excellent on all blooms, has fine depth and texture. A basket or vase of this variety is a real knockout. Has won a number of blue ribbons in open divisions of Northwest shows..... NET 5.00

CASCADE ELF (Tony DeRooy)—(FD Min., M)—Blend. A really dainty miniature which seldom gets more than 3 inches diameter with appropriate depth. Base color is white, overlaid with violet in center and at ends of petals. Stems 6 to 8 inches, making this an excellent dahlia for arrangements. A real joy for the florist in the family..... NET 3.00

CASCADE GLOW (Tony DeRooy) — (IC B M) — Flame. A real standout in the garden. Blooms are obvious from across the garden because of the fiery color. Stems and texture are excellent, and the form is superb. Also a blue-ribbon winner at several shows. ..... NET 5.00

ICE PATROL (Catherine Miller)—(STC B M)—(See picture, page 44, A.D.S. Bulletin Nov. 1961)—White. Slight overcast of amaranth rose. Petals deeply lacinated. Resists water and rain spotting. Midseason bloomer. Received A.D.S. seedling award and A.D.S. achievement ribbon at the Seattle Dahlia Show and the Pacific Northwest Conference Show at Everett 1961. It's a beauty!..... NET 10.00

KITSAP K-T (Catherine Miller)—(FD B T)—Waterlily type. Mimosa yellow with rhodamine pink shading to outside of blooms. Early blooming. Very nice..... NET 3.00

LEILANI (Catherine Miller)—(SC B S)—Rose-red. Petals slightly squared at tips and showing a very small amount of reverse. Early bloomer. Scored 85.17 at the Pacific Northwest Trial Garden. ..... NET 7.00

LEPRECHAUN (Cliff Taylor) — Dwarf-Peony type. Light blend, yellow with slight pink edges, 14" tall. A real addition to our dwarfs. Plant a hedge and enjoy them..... NET 3.00

SPRING 1962

Large Decorative and Cactus Varieties

These all have good stems, some longer than others, but all strong enough to hold their flowers well. The STC, IC, SC are all good cut flowers. The smaller sizes in FD and ID cut well also. Extra-large dahlias in FD and ID are usually grown for show and garden displays only.

Dear Dahlia Friends-

Happy gardening. Hope your dahlias did as well as ours this year. We had a hot, dry summer, but our water held out and everything grew like mad, including the weeds. We built a new dahlia shed to kind of help keep the weather off the yard customers. It helped a lot to have a good place to put the coffee pot and take orders, it should have been twice as big on Sundays though, we certainly had lots of visitors this year. We thought we were off the beaten path so far that we wouldn't have many drop-in customers, but we forgot that a true dahlia lover will find you anyplace. That big parking space we were so proud of seemed to get littler every week. If you want to visit the field, it's usually all in bloom by middle of August, you're welcome. We label them all with their names and prices so people can look for themselves if we're away to a dahlia show.

This area should be a madhouse all next summer, because of Seattle's fabulous Century 21 World's Fair. We expect to have a lot of tourists come across Puget Sound to the scenic Peninsula area. If you would like to find us we've made a map showing our place, and how to get here from the ferries. Send for one if you think you'll need it.

Our oldest daughter gave us something else to be proud of this year. She and her husband presented us with a granddaughter in August. Made us feel our age, but she's worth it.

How do you like the new catalogue? We had it printed this year, just took out the non-essentials like this letter. We've had no time this winter to do our own, will just use the mimeo for yardlists, etc. from now on.

We have two new dahlia-originators with us this year, besides Tony De Rooy. Anyone who goes to dahlia shows in the State of Washington will recognize both Catherine Miller and Cliff Taylor. Catherine and her husband Leo have been active members of the Kitsap Dahlia Society for years, and they attend all the other shows they can. The same can be said for Cliff Taylor and his wife, Florence. They belong to the Washington State Dahlia Society (Tacoma), but they help out at every show they can. We're proud of having their dahlias and Tony's to offer this year.

We're trying out something new this time too. We've had inquiries for other things besides dahlias from time to time, as many of our customers live in out-of-the-way places where they have to buy by mail instead of going to a garden store or grower. The Northwest grows beautiful gladiolus and holly. We thought we'd give folks a chance to order them through us. If it works out, we'll keep doing it each year. Mixed colors in gladiolus, and bulk holly, should add a lot to folks pleasure in the summer and during the Holiday Season.

Perhaps we'll see you when the flowers start to bloom, or at the Kitsap Fair and the Seattle Dahlia Show, where we usually have a display.

Have a good year, good luck.

Lynn and Maxine Murray--Miller Dahlia Farm Box 27 Kingston Wash.

P. S. Don't forget the postage and handling fee for dahlia orders under $5.00. Costs are rising on packing materials and postage every year.

MIXED GLADIOLUS (Large flowered)

No. 1 and Jumbo bulbs. $1.25 a dozen, postage prepaid for gladiolus.

Bulk cut holly--available in late November. Prices furnished if interested.

SUGGESTIONS

We grow a good many varieties that are sold-out in the yard, or have insufficient stock to list this year. If you are looking for a variety, ask for it, we may be able to spare a few if we have it.

Every year we have customers who would rather trust our judgement than their own. They send an order, enclosing the amount they want to spend, and give us a general idea of the types they would like. It's fun to fill these, and we're proud of our choice. Always give our own favorites, in generous quantity. It's just a suggestion, if you can't make up your mind.

CULTURAL DIRECTIONS WILL BE INCLUDED WITH YOUR ORDER. LOOK FOR THEM.

BI-COLOR AND VARIEGATED VARIETIES

Almost all bi-color and variegated varieties have a tendency to throw sports, reverting to solid color, usually darkest color. We can't guarantee that there won't be some sports among those that are okay in our rows the previous season.

SUBSTITUTIONS

Stock of some varieties may not be equal to the demand, and to save time and writing we suggest the customer allow the privilege of substituting similar varieties when necessary. Extra value is always given in such cases, or, better yet, put down a couple you'd like as second choice.

GIFT CERTIFICATES

Give a gift certificate for dahlias for Christmas, Mother's Day, or birthdays. Specify the amount you wish to spend, or pick out the varieties yourself. The specials make nice gifts.
